

SAFETY APPROVALS (安規認證)

The graph plots Air Pressure (mmH₂O) on the y-axis (0 to 15) against Air Flow on the x-axis. The x-axis has two scales: M³/MIN (0 to 0.150) and CFM (0 to 6). Three curves are shown: H (High Efficiency, light blue), M (Medium Efficiency, green), and L (Low Efficiency, red). Each curve has a vertical segment at low flow rates and a sloped segment at higher flow rates. The H curve is the highest, followed by M, then L.

Air Flow (M ³ /MIN)	Air Flow (CFM)	Pressure H (mmH ₂ O)	Pressure M (mmH ₂ O)	Pressure L (mmH ₂ O)
0.000	0	11.5	8.5	4.0
0.025	1	11.0	7.5	3.0
0.050	2	10.5	6.5	2.0
0.075	3	10.0	5.5	1.0
0.100	4	9.0	4.0	0.0
0.125	5	7.5	2.0	-
0.150	6	5.0	0.0	-
